

PETROVIETNAM DRILLING

To Dr Bensaada Hichem

Position: Medical RIG Doctor

Company Name: PetroVietnam Drilling 11 (recruited by OSCO Algeria)

July 21, 2023

To Whom It May Concern,

I am pleased to provide a strong recommendation for Dr Bensaada Hichem, our outstanding Medical Doctor at PVD11. As the Tool Pusher overseeing operations, I have witnessed first-hand Hichem's unwavering dedication to the health and safety of our workforce.

Dr Bensaada has consistently demonstrated professionalism, resilience, and adaptability in the challenging oil rig environment. Their proactive approach to healthcare, coupled with excellent communication skills, has fostered a positive and supportive work atmosphere.

Additionally, Dr Bensaada has played a pivotal role in emergency preparedness and response planning, contributing to our overall operational readiness.

I have full confidence that Dr Bensaada Hichem will be an invaluable asset to any organization he joins, and I wholeheartedly recommend them for future opportunities.

Sincerely,

Mr TRƯƠNG TÔ ĐIỀN

Toolpusher

Recommendation letter for Hichem Bensaada

Dear Admission committee

I am writing this letter to recommend Dr Hichem Bensaada. He is our working site doctor since January 2022. He was recruited by OSCO Algeria to work for the drilling division of Petro Vietnam company (PVD 11), at an oil drilling site operated by GBRs group. I am the supervisor of the whole operation, and I am confident that he has the potential to make a significant contribution to global health.

Dr Hichem Bensaada is an exceptional Medical Doctor who possesses the desire to prevent illnesses and promote human health. He has expressed to me that his goal is to gain knowledge and skills that help him decrease health disparities and the ever-increasing healthcare costs. Dr Bensaada demonstrated great leadership skills while he is our medical doctor. For instance, he improved our protocol for the periodic cleaning of the drinking water tanks to be more suitable and applicable, and he wrote a detailed document that we are currently applying in our mission. He enjoys the company of people and has displayed great team working skills in collaboration with our health, safety, and environment team (HSE team), not only to develop and apply our risk management, environment protection and hygiene Policies but to train the workers on applying them as well.

He is well-organised and sincere when it comes to his duties, and as his supervisor, we trust him here to manage the situation in case of an emergency.

Dr Hichem Bensaada possesses resilience, integrity, and the ability to collaborate with others to achieve a shared vision. I believe your program would be a perfect fit for him as it offers the ideal environment for him to develop his strengths as he gained the prerequisite knowledge and skills to become a global health professional. I strongly recommend him for your program and your favourable consideration of his application will be much appreciated.

Huge Regards

Abdelhalim Handis
GBRS Drilling Supervisor
